02 **What we do** —Business Instruction

03 **Who's Frigga** — Company Introduction

04 **Why Frigga** — Our Advantages

05 Frigga Solutions Key features

06 Summarize

1, Group Company Structure

Shanghai Dewav IoT Technology Co.,Ltd.

Headquarters

Dealing with the Chinese domestic business

100% owned subsidiary

PILOT IoT (HK) TECHNOLOGY LIMITED

Wholly owned subsidiary

Dealing with the overseas business

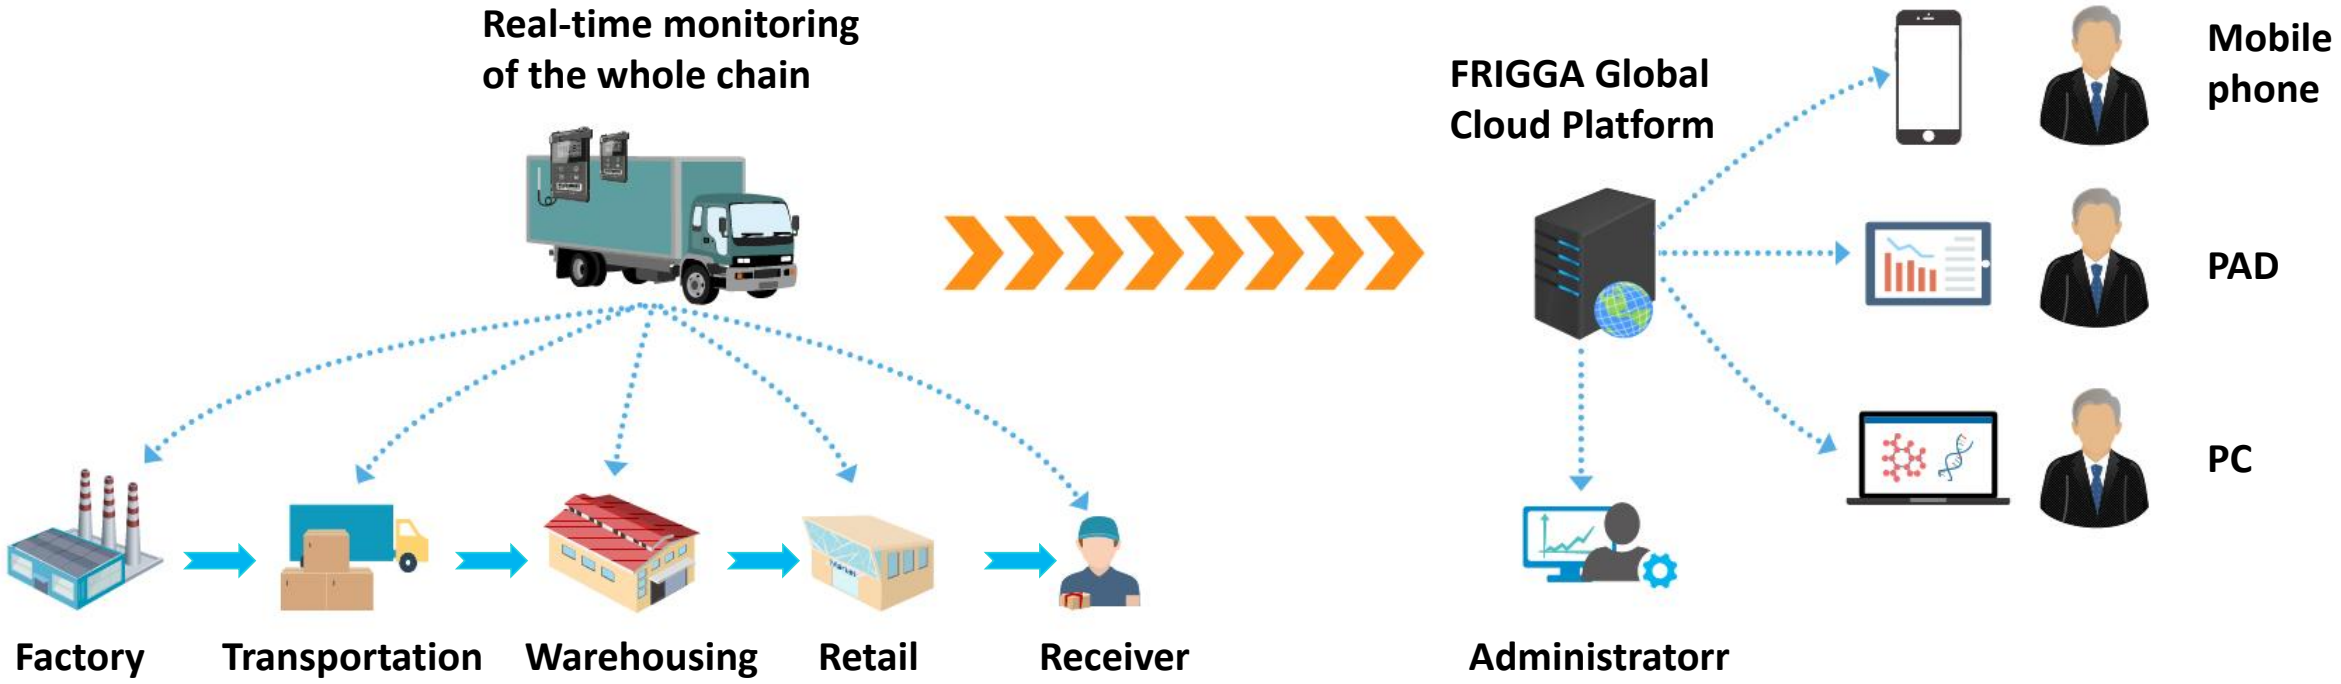

Global Brand Name

All products are using Frigga brand

www.friggatech.com

Business official website

2, What we do — Real-time Cold Chain solutions

Hardware used worldwide

168+ countries coverage

Globally big data monitoring platform

2, What we do — Global Real time Visualization Platform

FRIGGA
Real Time Cold Chain Solutions

2, What we do — Traditional USB logger

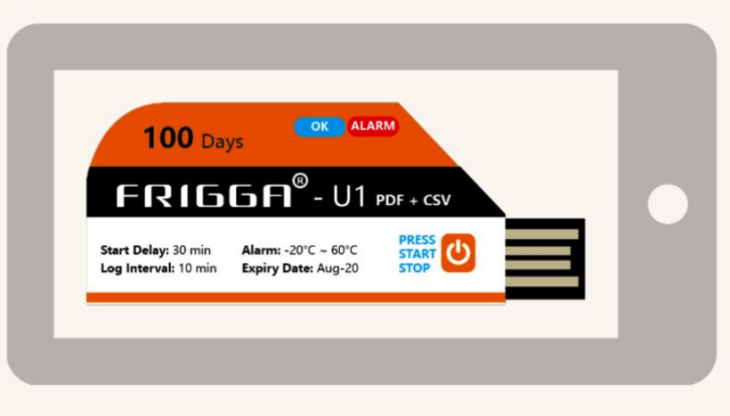

Not only real-time data logger

We are also professionally providing the traditional USB data logger

3, Who's Frigga

- Frigga, a member of DEWAV Group, based in Shanghai, China. Founded in 2004. The subsidiary is located in Hong Kong.

- More than 18+ years experience in wireless communication product development

- More than 150 patents, 80% are related with wireless electronics area

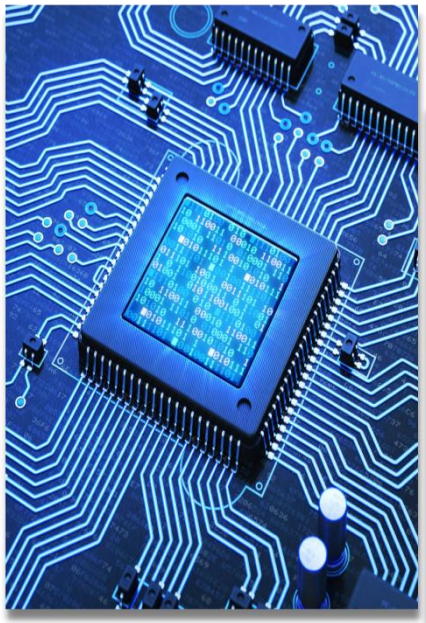

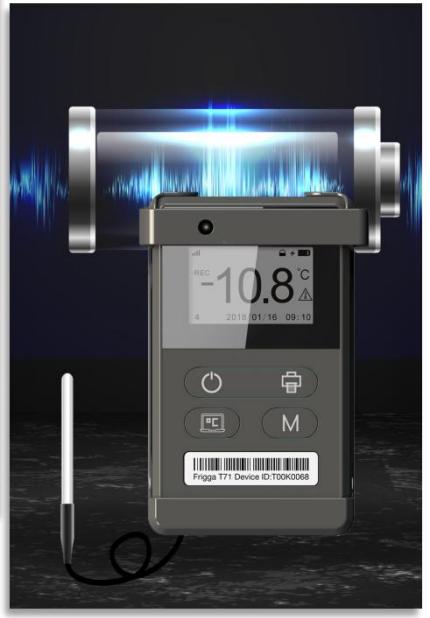

4, Why Frigga — Chip Level design

Chip-level design instead of standard communication module:

- Better signal performance
- More stable system operation
- More durable power endurance

4, Why Frigga — Better Signal Strength

	TRP (dBm)	TIS
Competitor S	25	-102
Competitor E	17	-80
Competitor D	24	-101
Frigga	**29**	**-106**

Effective working range

156% larger than competitors

2.56 times as bigger as competitors

4, Why Frigga — Lower Power Consumption

- Frigga‘s unique **low-power** algorithm, 4G devices use the same time as 2G devices.
- 2 times battery use time longer than competitors.

4, Why Frigga — Best Quality Guarantee

Electromagnetic shielding room

Air tightness test

Air tightness test

High & Low Temp. Cabinet

Reliability Laboratory

ESD Laboratory

Waterproof test

Alcohol tank

Fully equipped laboratory ensure product quality

4, Why Frigga — Complete quality certification

100,000 grade clean production area

Mis-proof material system management

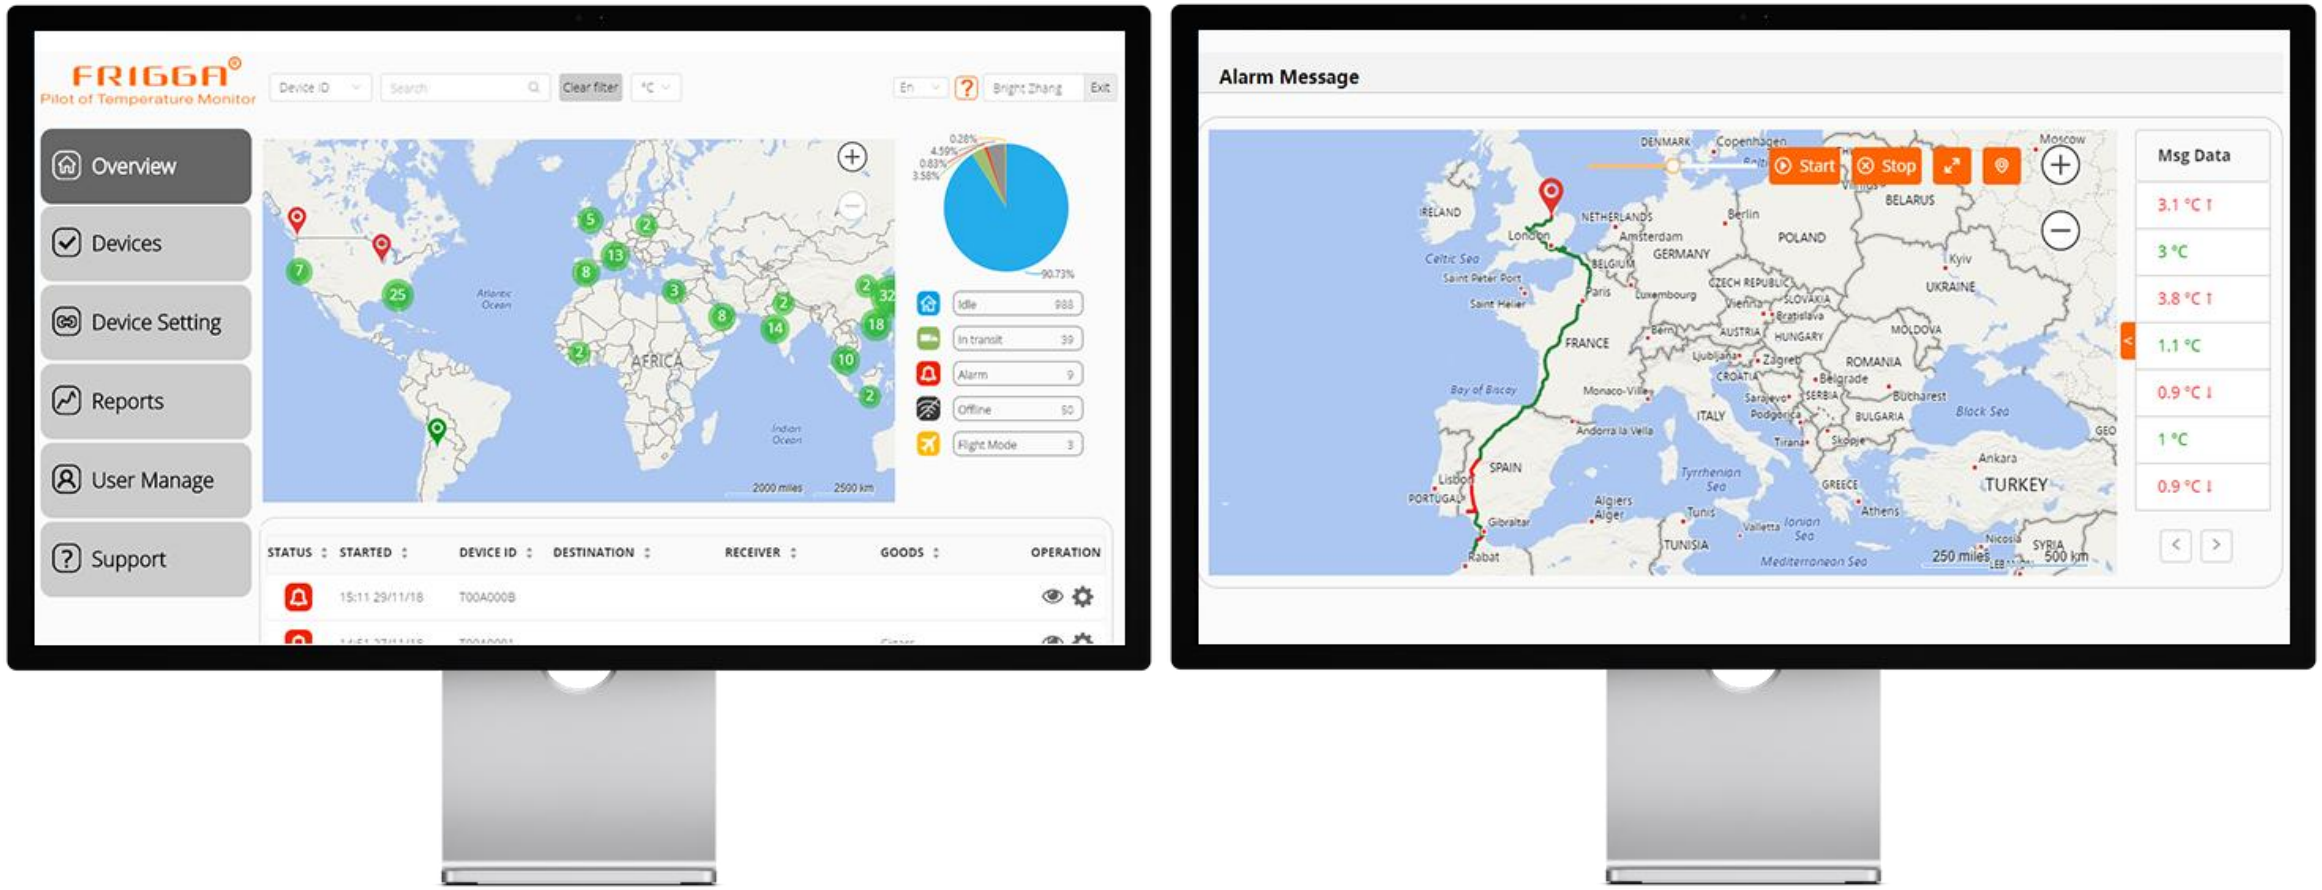

4, Why Frigga —Summarize

FRIGGA
Real Time Cold Chain Solutions

The core team has been done the R&D and production of wireless communication products for 18+ years, and has outstanding advantages in technological innovation, R&D design, patent and other aspects.

Wireless performance	•In the IoT industry, with powerful chip-level design capability: Stronger signal; 150% increase in working range; More stable transmission; Zero loss of datas.
Lower Power Consumption	•Optimize power consumption from hardware and software to extend service time. Under the same battery and working environment, the battery life is 2 times that of the competition.
Quality assurance	•Perfect design, R&D, production control process. Tested by Japanese and European customers, we guarantee the quality of our products.
Customer service	•Years of overseas service experience, well versed in the essence of customer service and the expansion of overseas channels.
Continuous Innovation capability	•We are a technology background company with the ability to continuously develop competitive products.

5, Key features — Global Real time Visualization Platform

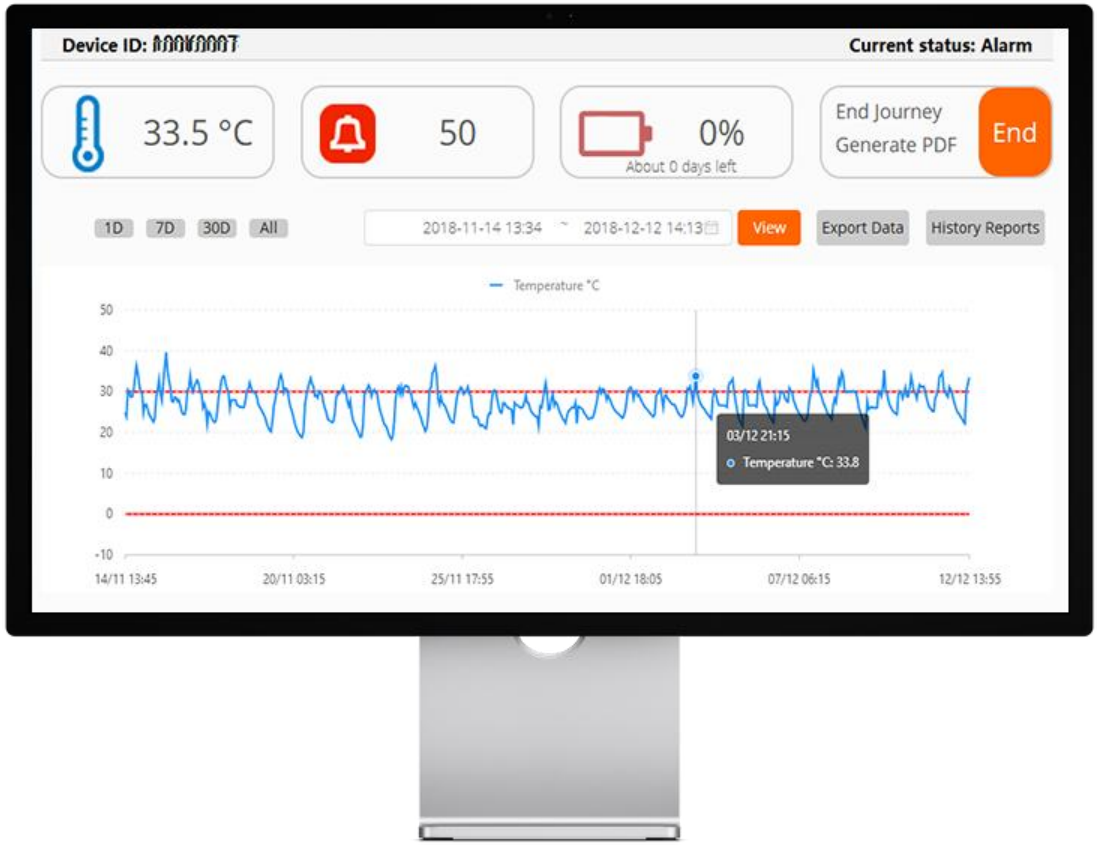

Temperature, Humidity, Light, Shock, Location, Track routes

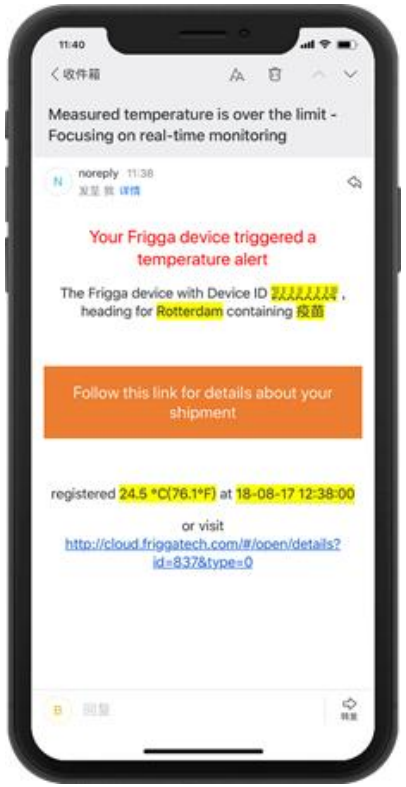

Global Real time Visualization Platform

5, Key features — Real-time alert in transit

Real-time alert immediately via (E-mail, mobile apps, SMS)

Reduce the products loss via real time alarm.

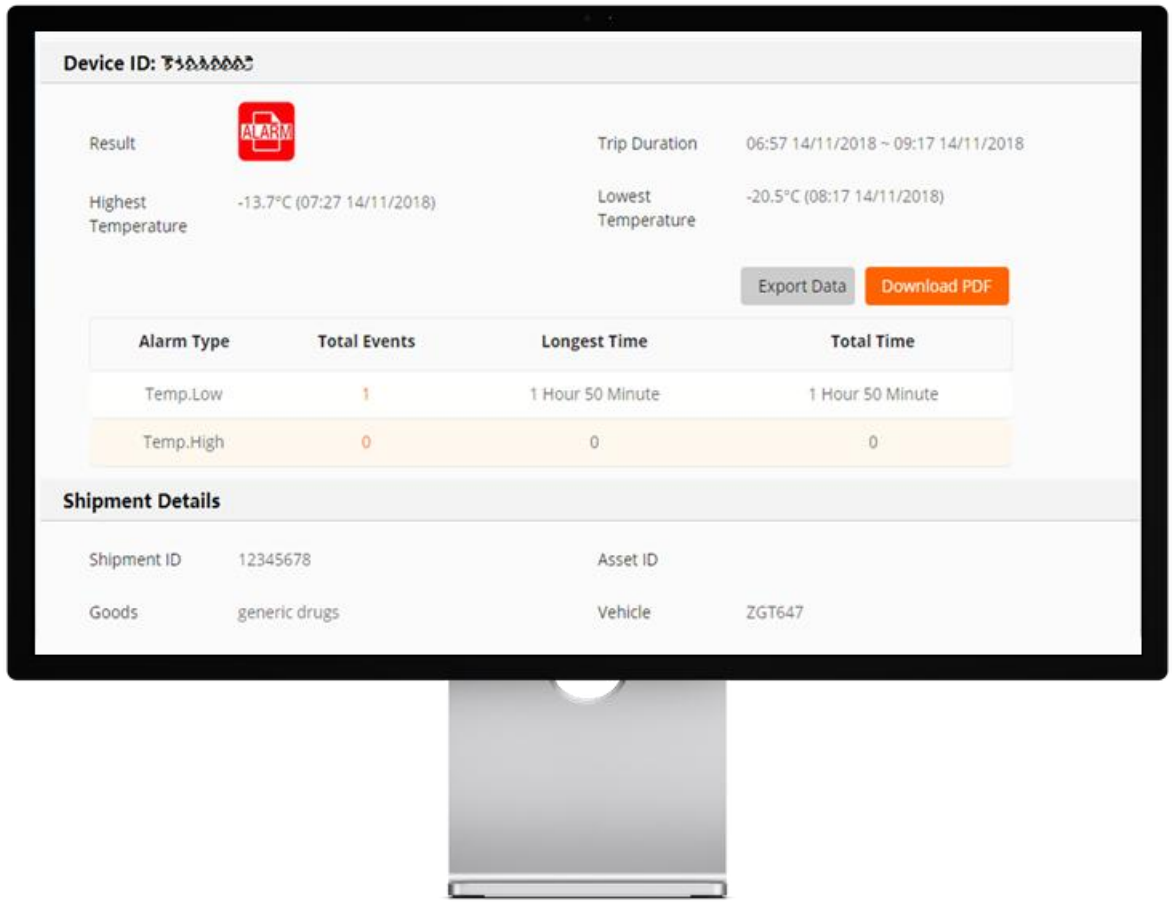

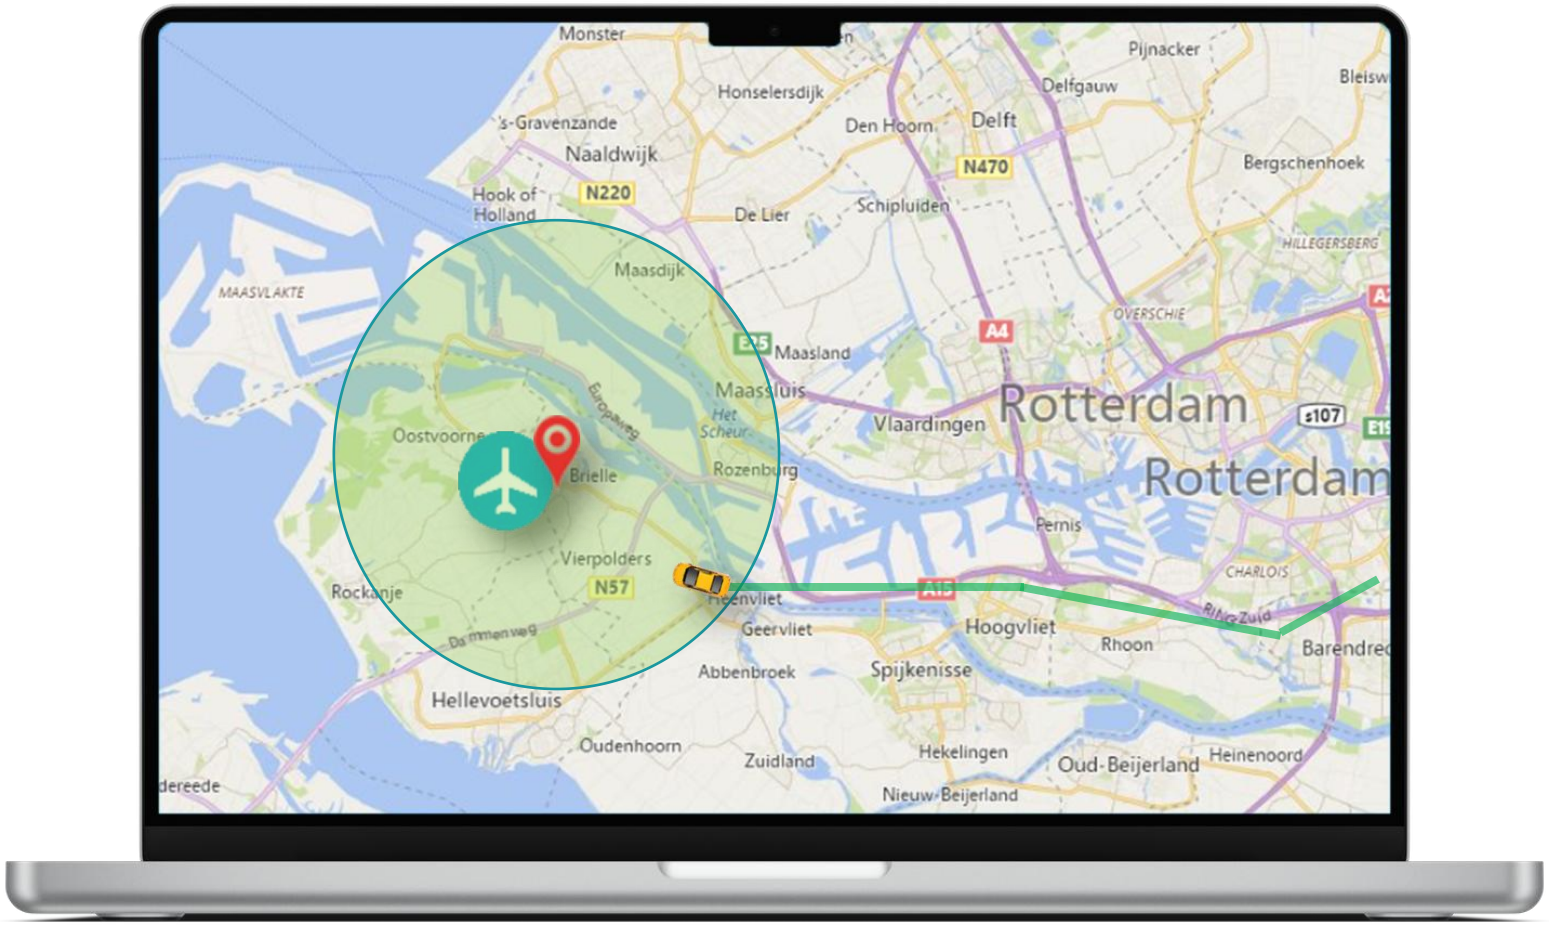

5, Key features — Report (Data statistics and analysis)

- Automatically generate analysis reports.
- Big data backup and data analysis via FRIGGA cloud platform.

5, Key features — Flight mode (location notification)

When the device arrives in a preset location, it can automatically enter into flight mode or send a notification to the appropriate personnel via email or mobile apps push.

5, Key features — Double - backup PDF reports

Local Device PDF report
（Through USB port generated）

+

Cloud platform PDF report
(Download from platform)

Frigga device keep all the USB logger usage habits

with

Real time monitoring function

5, Key features — Long Warranty Period

2 Years Warranty Perio
